Q2] c] 'One cannot not communicate'.

According to this there is no way one cannot not communicate. We are always communicating; even the silence sends out a message. Verbal or non-verbal, even the lack of action sends a message. Silence may be an implicit message to the others. One cannot respond in a communication, though this is communicating too. Non-verbal actions send a message too. For example, one can nod to confirm or disagree an action. This has a message value too. Or cannot not respond to this communication, it's a way of communicating too.
