Q-2-C)

→ One cannot not communicate.
This axiom means :-

There is ~~noway~~ one cannot communicate we are always communicating; even the silence sends out a message verbal or non-verbal. even the lack of action sends a ~~se~~ message. Silence may be an implicit message to the other. one cannot respond in a communication though this is communicating too.

~~Non-verbal~~ actions send ^a message too as one nod to accept or decline ~~or~~ rather ~~not~~ respond but it still sends a message and hence it is a way of communicating.
