Q1]

B]

- i) Despite of drawbacks of grapevine communications it is still prevalent because it channels information rapidly.
- ii) The grapevine is a supplement in those cases where formal communication does not work.
- iii) It channels information rapidly which results in quick feedbacks.
- iv) One of the most important benefit of grapevine communication is that it keeps employees updated. Any news, good or bad reaches everyone and allows them to respond according to it.
- v) It creates group cohesiveness which often becomes the main reason for bringing people closer and making them friendly. Gossip increases interaction between the employees which directly increases workability of any organization.
