'One cannot ^{not} communicate.'

'C' Scheme: Sem-II

→ All behaviour is Msg.

a form of communication in and itself. Any perceivable behaviour, including the absence of action, has the potential to be interpreted by other people as having some meaning.

Everything one does is a message even when we do nothing verbally or non verbally. we are transmitting something.

"Activity or inactivity words or silence all having a messaging value: they influence others and these others, in turn, cannot respond to communicate" and are thus themselves communicating."

"One cannot not communicate". Even being silent is a way of communicating some kind of message so it is impossible to communicate.

Non-communication doesn't exist. It does not imply that we are communicating must be understood by other.
