2 (C) 'One cannot not communicate'. According to this there is no way one cannot not communicate. We are always communicating; even the silence sends out a message. Verbal or non-verbal, even the lack of actions sends a message. Silence may be an implicit message to the others. One cannot respond in a communication though this is communicating too.

Non-verbal actions send a message too. For example; one can nod to confirm an action. This has a message value too. One cannot not respond to this communication, its a way of communicating too.
