Q2.

C.   'One cannot not communicate'

According to this there is no way one cannot not communicate. We are always communicating, even the silence sends out a message. Verbal or non-verbal, even the lack of action sends a message.
Silence may be an implicit message to the others. One cannot respond in a communication, though this is communicating too.
Non-Verbal action send a message too.
For example, one can nod to confirm an action. This has a message value too.
Or cannot not respond to this communication, its a way of communicating too.
Even being silent is a way of communicating some kind of message.
